Leader as Coach

Module 1: Coaching Foundation: The Leader as a Coach
Understand the fundamentals of leadership coaching. When to use coaching and when to use mentoring to develop others. How to use powerful questioning, provide feedback and observations, to undertake creative action planning.

Module 2: Creating insights: Coaching with Emotional Intelligence
Take a dive deeper into the transformational realm; looking at the relationship between the brain and emotions, how coachees may embrace or resist change, how beliefs and values shape us.

Module 3: Applied Positive Psychology in Coaching
Take a look at a variety of Positive Psychology tools, concepts and approaches; explore how you can leverage your own strengths and those of your coachees using an appreciative inquiry based approach. Explore the realm of transpersonal coaching, and how to coach leaders to help them connect with their sense of meaning and purpose.

Module 4: Coaching through Ambiguity and Complexity
Take a look at coaching in context, exploring how to facilitate systemic understanding in your own coachees and enable them to think strategically within their own environments and leadership frameworks.

Outcome

Be a **Certified Executive Coach** with a globally recognized **Coaching Federation.**

You will be equipped with the understanding, tools and skills you need to begin your coaching journey.
